A Personal Message to You

from the President of Montgomery Ward & Co.

FORTY-NINE years ago this business of Montgomery Ward & Co. had its beginning. As the original mail order house it set out to find new paths direct to the customer. There were many problems to solve, but its originators, A. Montgomery Ward and George R. Thorne, found one rock upon which to securely set its foundation—that of absolutely honest dealing with its customers.

And in all these forty-nine years, that principle of fair dealing has been our business conscience—our business religion.

Today we make our appeal for your business with a clean record and with the ideals of our originators unchanged. Today Ward's stands for the same old-fashioned honesty and reliability.

And yet no institution is more filled with the spirit of newness, more aggressively up to date, more alert to improve its service and to give even better and bigger values. Ward's today is young with the ambition and enthusiasm of youth.

> **Any man or any business that does not go forward goes backward. *Ward's is going forward*—going forward in giving you quicker and more correct service, in choosing for you only the latest and most reliable merchandise, in searching more carefully and more expertly for ways of getting lower prices—to make your Savings larger—your satisfaction more complete.**

Today there hangs in every plant in Ward's—in its original home in Chicago, in its houses in Kansas City, St. Paul, Portland and Fort Worth, in New York where our Fashion Experts select for you the newest and the best New York Styles—in every branch of this institution there is displayed for the guidance of every employee, the message printed below:

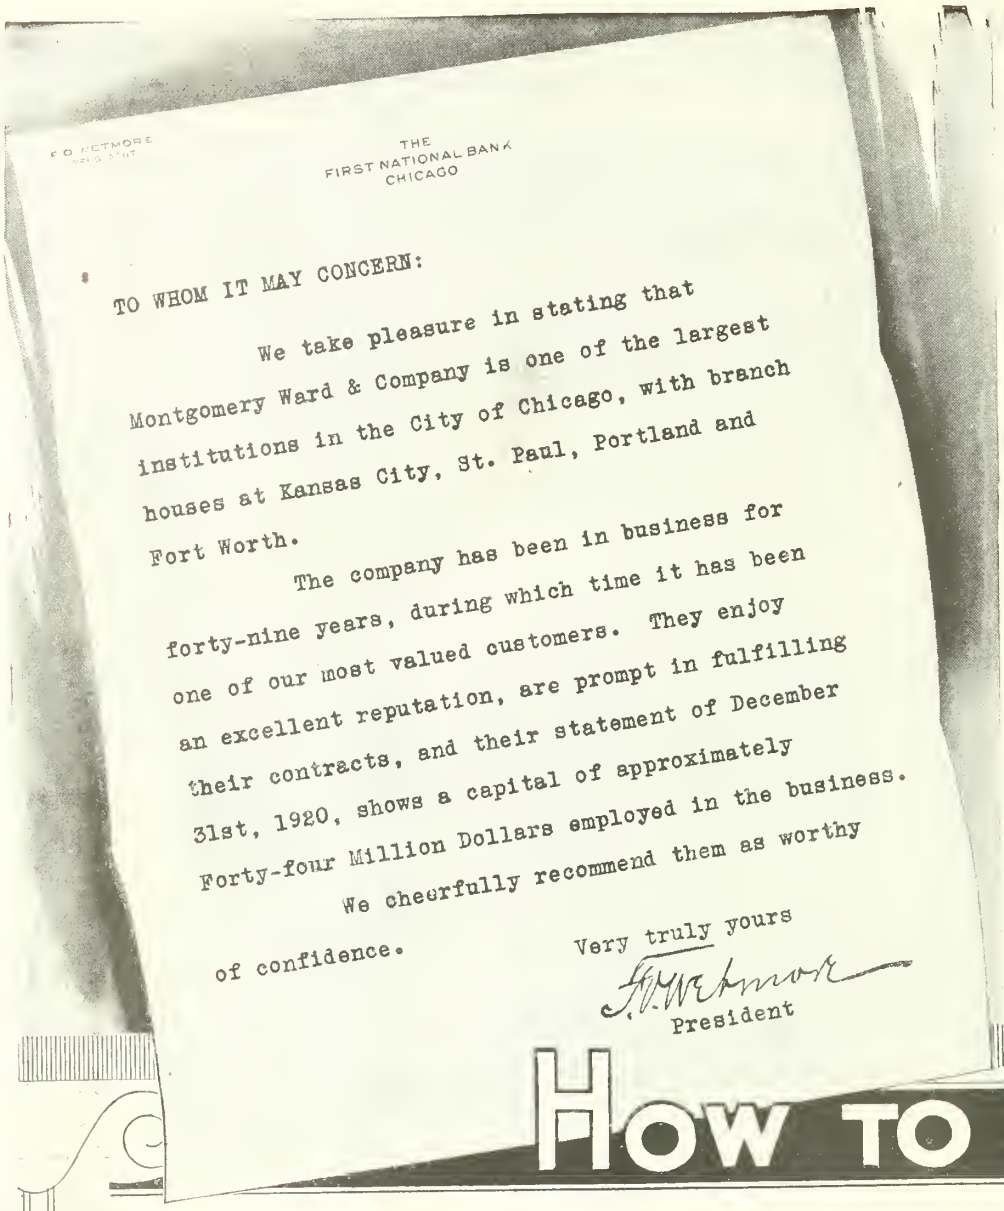
Our Duty is to Please Our Customers

> **Our first duty is to give prompt and accurate Service to our Customers.**
>
> **Remember that every letter—every order—is not merely a piece of paper. It represents a Customer, a friend of Ward's.**
>
> **See that every order is handled quickly and correctly so that we may keep that friend.**
>
> **Never forget that after all, it is our Customer for whom we are working.**

Montgomery Ward & Co. has reached an age of almost half a century. Yet today, as you turn these pages, you will see that Ward's is filled with the spirit of newness, of improvement, of going ahead with determination to serve you more quickly and with more complete satisfaction than ever before.



In one respect there is no change. Our foundation policy of fair dealing stands as it has always stood—reliable goods always, every article exactly as pictured and described, and everything sold under our money-back guarantee.

THEODORE F. MERSELES
President

Guarantee: It is our intention that every article illustrated or priced in this book will reach you precisely as described, and in perfect condition, and give entire satisfaction. You take no risk in sending us your order, for we *absolutely guarantee* satisfaction in every detail. Unless you are fully satisfied with the goods and with the saving that you have effected in your purchase, you are at liberty to return them at our expense. Not only will we refund the money you sent us, but we will gladly reimburse you for the transportation charges that you have paid.

TO WHOM IT MAY CONCERN:

We take pleasure in stating that Montgomery Ward & Company is one of the largest institutions in the City of Chicago, with branch houses at Kansas City, St. Paul, Portland and Fort Worth.

The company has been in business for forty-nine years, during which time it has been one of our most valued customers. They enjoy an excellent reputation, are prompt in fulfilling their contracts, and their statement of December 31st, 1920, shows a capital of approximately Forty-four Million Dollars employed in the business.

We cheerfully recommend them as worthy of confidence.

Very truly yours

President

Presenting New York's Latest Styles

Selected in New York by Ward's Own Fashion Experts

Silk Seal Plush
Opossum
Fur Collar
10E232
$29.75

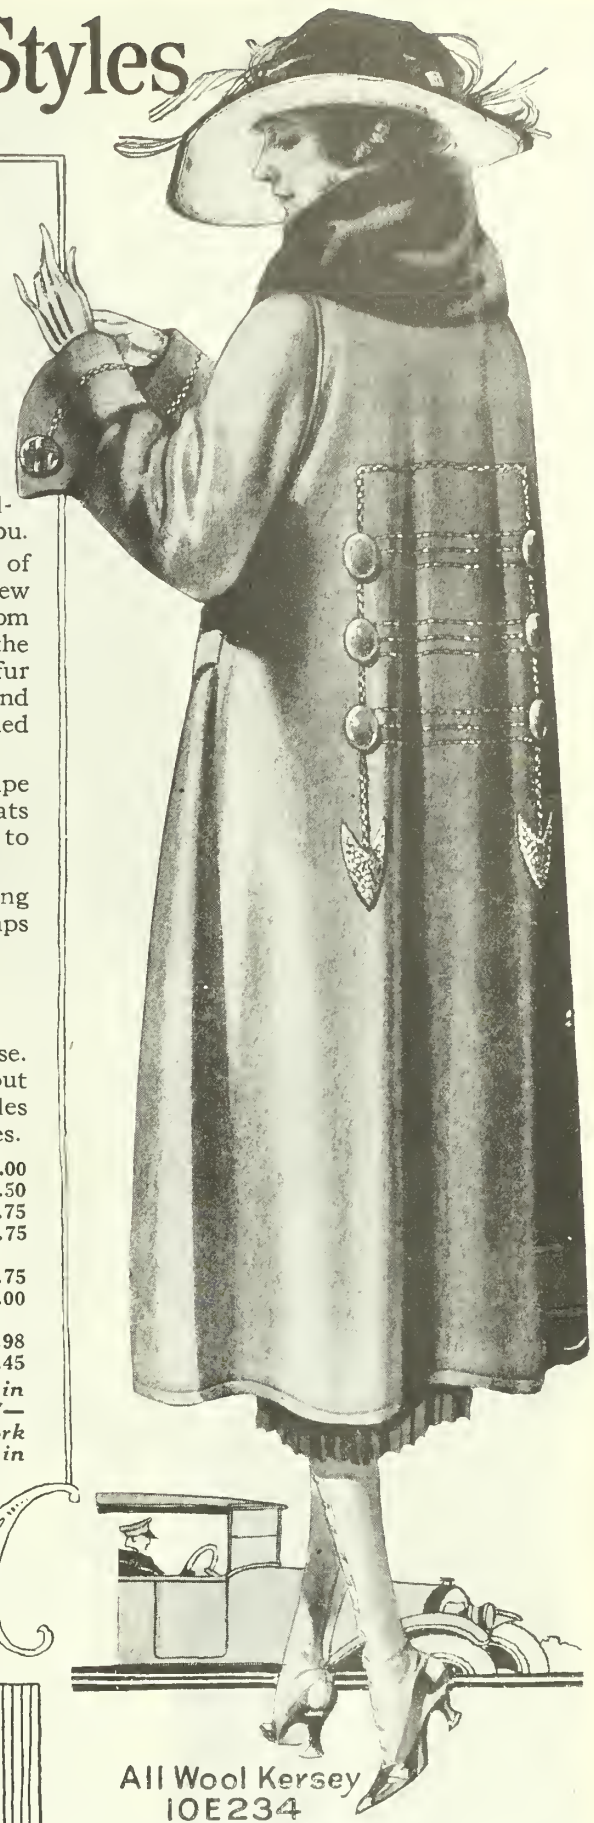
IN our building in New York, in the heart of America's Fashion World, Ward's own Style Experts work every day for you.

Actually thousands of New Styles, in Coats and Dresses, Hats and Suits and Waists, are brought into our Selection Rooms. The best that Fashion creates is almost instantly in our hands. Side by side the style comparison is made—and the best, the newest, the greatest values chosen to be shown in this book for you.

These beautiful coats tell the story of our expert Style selection. Note the new lines. The new coats hang straight from the shoulders, often tending to flare at the bottom The graceful Tuxedo fronts, fur and fur-fabric trimmed are very new—and practical, being worn open or buttoned close at the neck for extra warmth.

Full length coats rule, but with the cape collar that distinguished last year's coats modified into a broad collar reaching to the shoulders.

Fur trimming is much used, and stitching and braid, cording and buttons and straps of self-material add the Style notes.



The Styles are New
The Low Prices are of Years Ago

We do not like to indulge in self-praise. But—we feel it our duty to you to point out your saving on the latest New York Styles—if your coat is bought from these pages.

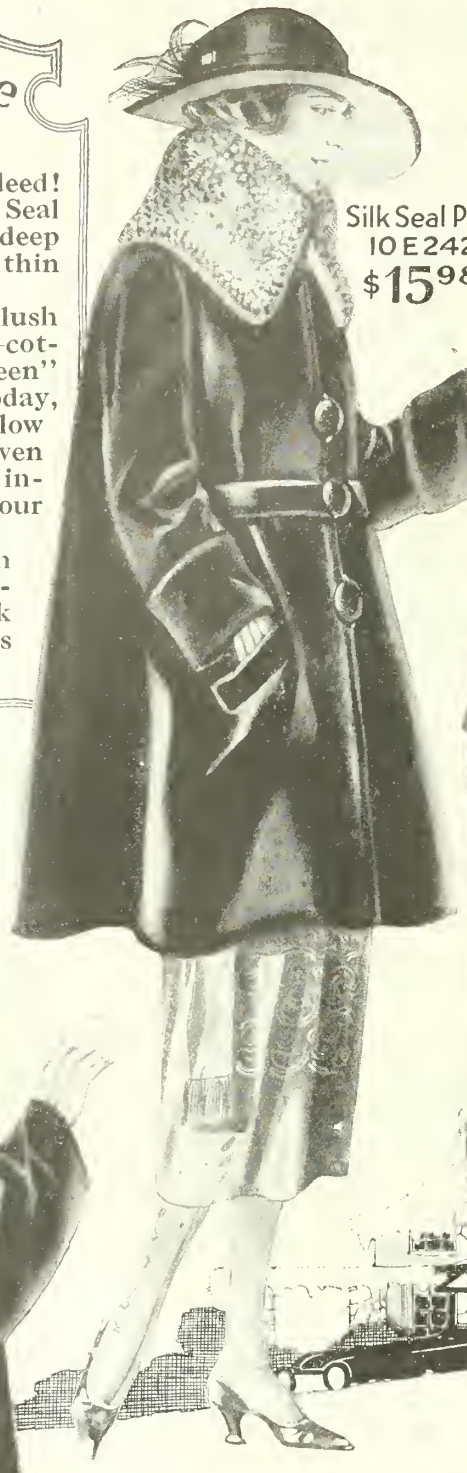
Ward's Genuine Silk Plush



Here's good news indeed! Ward's Genuine Silk Seal Plush, soft lustrous deep piled silk, at a price within the reach of all.

During the war, silk plush was prohibitive in price—cotton plushes or "Velveteen" plushes were used. Today, genuine silk plush is so low in price that we do not even include the lack-lustre, inferior cotton plushes in our line.

No more cheap cotton plush—for Ward's genuine soft, lustrous, silk plush coats are as low as $15.98. There's good news indeed!

How to Measure

For Women's Outer Garments

BUST MEASURE· Place tape line entirely around the body over fullest part of bust, close up under the arms. Do not take this measurement too tight and do not allow tape to slip down in back.

WAIST MEASURE: Take this measure over your skirt all around the natural waist line to where tape measure meets in front. The number of inches shown by your tape is your proper waist measure.

HIP MEASURE: Place tape line around fullest part of hips over your skirt 7 inches below your natural waistline. Do not allow tape measure to slip down.

FRONT LENGTH OF SKIRT: Measure from your natural waistline in front down to whatever length is desired.

Always give age, color and other information, as well as measurements, when required.

Stout Coats of Special Designing

Stout Coats are usually coats of merely a larger size. Ward's New York Style Experts realized that making a coat bigger meant changing the lines, and therefore that special designs become necessary.

Here are coats designed and cut to fit the fuller figure; yes, and especially designed to bring out natural poise and grace of the larger woman.

There is an effect of slenderness, a new beauty in these coats of special designing. And there is an assurance of a perfect fitting garment, with amply deep armholes, wider sleeves and a greater sweep in the coat itself.

There is a real pleasure for you in Ward's coats for the woman of stout figure.

Fashion's Latest Designs

Above everything else, Ward's showing of New York Suits embodies STYLE.

There will be no suits offered you this season that will embody more of the very latest style ideas, or that will be so distinctive, so completely approved of fashion.

Here are New York's newest suits, fur-trimmed, embroidered, with sleeves close-fitting, the new high fur collar—slightly longer and a little fuller, perhaps, yet all with the lengthened and more slender silhouette that distinguishes this season's suits from last.

But the big change is in the prices. Every Ward's suit is ALL WOOL—and yet the prices begin at $15.00, and $35.00 buys the very finest suit in the line.

Just consider—and compare—these prices. Consider that every suit is a New York model, selected in New York, made in New York—Every Ward's suit, in every detail, is the approved of Fashion.

How to Order Your Suit

In ordering a Woman's suit give us your actual bust, waist and hip measurements, and front length of skirt desired. In ordering a Misses' size suit give us your age in addition to the above measurements.

All these measurements should be taken over your shirt waist or over your dress. Make no allowance whatever for fullness, as we do that. These suits are well proportioned throughout.

See page 5 on how to take your measurements.

Better Than Mrs. Boeve Expected

Mrs. H. H. Boeve of Holland, Michigan, writes us about her new coat:

"The coat I just bought from you is wonderful value. It is better than I expected and I am well satisfied with it. The quality is fine and I like the style very much.

New York's Latest Styles at one-half last year's price

All Wool French Serge 14 E 5034 $12.98

Satin Messaline 14 E 5036 $9.98

Silk Taffeta 14 E 5030 $16.75

THESE pages of New York's most beautiful dresses present the greatest style achievement, and offer you the greatest price opportunity of the year.

Ward's own Fashion experts, living in New York all the year, in touch constantly with every turn of Fashion, have selected these styles as New York's very newest and very best.

Ward's own Merchandise experts, with ready cash, with complete knowledge of good materials and where to buy them, have made possible these prices of one-half the prices of a year ago.

Compare these prices. A guaranteed All Wool Serge Dress for $4.98. A year ago the lowest priced dress of All Wool Serge was $19.75.

An All Wool Tricotine dress for $11.98. One year ago the lowest price was $26.75.

A Satin dress for $9.98. One year ago the lowest price was $27.50.

The New Styles Described

There is not one dress in these pages that does not bear the approval of Fashion—an authoritative, late New York Style.

The sleeves are in all the latest modes; long tailored effects, modified bell shapes, and the flare kimono sleeve in three-quarter length, shown on many of New York's most exclusive designs.

Girdles and Sashes, Fringe, Embroidery and Beading, and silk soutache Braid, are the smart trimmings. Tailored Dresses of Serge and Tricotine, (we show only All Wool Serges and Tricotines) have lapel collars of contrasting colors, and circular skirts with silk braid trimming.

In all, this is a season of *Beauty* in dresses. And here are the season's most beautiful and best — the prices one-half of the prices of a year ago.

14 E 5030 Truly representative of style and beauty of the season's New York frocks, as brought to you by the "House of Ward" — this ultra-fashionable model of lustrous All Silk Taffeta.

Reliability

The Reliability of the house from which you buy is most important in buying furs.

Silver is known by its stamp of "Sterling." Furs are to be known only by the Reliability of the house from which you buy.

Judging the fur itself is a matter of expert knowledge. And in this work of judging furs we employ in New York a fur expert and a style expert as well, to choose for you furs that are worthy to be sold under our absolute guarantee.

Ward's Reliability has been known and tested for over Forty-nine Years. You take no risk in buying your furs at Ward's. And besides guaranteed satisfaction, the assurance of correct Style — there is, as well, your Saving.

Quality Goes Higher As Prices Go Lower

It is a strange fact, but as fur prices go down we are able to buy better skins — because there are more skins from which to choose. There is a possibility for perfect matching of skins, and so, in considering their low prices, consider, also, that at Ward's the low price reflects an equally higher quality.

A good quality Imported Coney Scarf sold last year for $13.95. Ward's price now for better quality is $7.75. A Fox Scarf last year was $36.50, this year $21.98. These pages offer a Saving that is real, and offer besides furs of known worth and dependable quality —and that are absolutely guaranteed.

The Most Beautiful Blouses of the Season

WHAT a wealth of new style ideas, of new beauty, has been put into the season's blouses.

Designer have given the blouse their chief consideration; the woman of Fashion has made it her favorite; and Ward's New York Style Experts have selected for you the most beautiful of all.

There is the very stylish overblouse of Tricolette, and Georgette, trimmed with silk fringe in Japanese effect; Georgette with beads, and embroidery in Wool and Silk and Chenille; blouses of the new Canton Crepe; and in the latest French bead effect known as Chromite—nothing that is new and desirable has been omitted by Ward's Fashion Specialists.

And not only are Ward's Styles the very choicest, but **materials and workmanship** will please you. There has been no "skimping" in our blouses to get prices down. And yet Ward's prices are down, as low as the lowest—with quality always to be proud of.

Georgette Crepe prices start at $2.98; Voiles at $1.19; Linons and Jean at 99c; Flannels at $1.49.

If you have never bought your blouses at Ward's, you have a real surprise in store in Beauty, in Style and Quality and Price.

15 E 6124 Dainty new overblouse of sheer, good quality Silk Georgette Crepe, beautifully embroidered and beaded in a distinctly artistic pattern.

Like most of the new models, this blouse is finished with piping of self material in contrasting color. Sash back.

15 E 6124—Rust Brown.
15 E 6125—Taupe Gray.
15 E 6125—Navy Blue. PRICE, Postage, 5¢ extra. **$3.98**

15 E 6120 You must see this dainty overblouse of good quality All Silk Georgette Crepe to fully appreciate this exceptional value at $3.98.

It is handsomely embroidered and beaded, an added trimming feature. Contrasting piping [illegible] Sash back.

SIZES: 34 to 44 bust. Give actual bust measure.
15 E 6120—Navy Blue.
15 E 6122—Bisque Tan. PRICE, Postage ¢ extra. **$3.98**

Ward Blouses Best Values—

Thinks Miss Martha Martinat of Homedale, Idaho.

"I like the style of my new blouse very much. I could not have bought a similar garment here for the same or less money.

"Your garments fit well and wear well. They are made of good quality material. In fact, I am always satified with everything I get from Montgomery Ward & Co."

(Published with Miss Martinat's permission.)

15 E 6128 This handsome overblouse of good quality, All Silk Crepe de Chine is made distinctive by the artistic embroidery of heavy floss in contrasting color. Fashioned in becoming round neck style with popular three-quarter length bell sleeves. Carefully made in every detail.

A Distinctive Showing of Ward's New Fall Millinery

IN New York, we devote a very large space in our building to the business of—Selecting Hats for You.

Our own Style Experts gather here the new designs, the most beautiful new Pattern Hats that New York creates, and then side by side all are compared for Becomingness, for Beauty, and for Style.

Ward's hats are the choicest of the season's designs, selected in New York and made in New York. One glance at these pages tells the story of their superior style.

Among the very newest, most favored designs are those trimmed with graceful feathers, the new filmy lace-brimmed hat, and the flower-wreathed turban with ribbon bow. There are hats of felt, velour and beaver, with the desirable velvet hats showing new trimming touches, and in the newest shapes.

Buying your hat at Ward's means getting an approved, authoritative New York style, chosen for its becomingness as well as beauty. It means buying a hat that is ultra stylish, without paying for its style. It means getting your hat at about half the price of one year ago. Ward's millinery pleases.

How to Measure for Wigs and Toupees

Wig Measurements

Wigs for men and women must be accurately measured according to chart illustrated at left.

Number 1—Around the head at edge of hair. (Average, about 22 inches.)

Number 2—From center of hair line at forehead to nape of neck at back. (Average about 13¼ inches.)

Number 3—From ear to ear across the forehead. (Average about 11½ inches.)

Number 4—From ear to ear over top of head. (Average is about 12 inches.)

Number 5—From temple to temple around the back of the head. (Average, about 14½ inches.)

Toupee Measurements

Cut a piece of tissue paper to fit bald spot, and crease it there until it fits the shape of the head; paste the creases securely. Draw a line where hair is to be parted and mark pattern "front," "right," and left sides. State size of hat, state if hair is straight or curly and send a generous sample of hair.

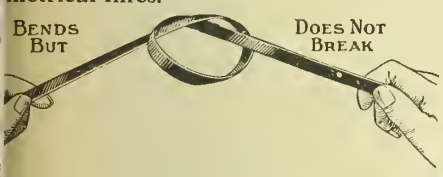
Ward's Juliette Corsets

Guaranteed For Six Months

he most important factor in a corset is per- fit. Hardly less important is the boning, steels, for they are the foundation—the sup- t—the basis of shape in a corset. Their quality ermines the length of service and strength to serve good lines.



Ward's Juliette Corsets are made with our own cial unbreakable steels which are guaranteed to rust, break, warp, split or crack. The ls are flexible and allow corset to follow ly and naturally every bend and movement he body.

e have selected four special models, each g constructed for an individual and different e of figure. They are designed to give the most rable fashion effects, molding the figure into metrical lines.

All the steels are covered with an extra strong cloth. The elastics are very heavy and will wear throughout the full life of the corset. Hose supporters are adjustable and of extra heavy quality.

Ward's Juliette Corsets are an unusual combination of style, comfort and service. Each piece of material is carefully selected and tested. The workmanship throughout is of the very best. Finished neatly in every detail. For real corset satisfaction order the model particularly adapted to your figure; if it wears out within six months we will replace it with a new corset.

We include with each corset on this page, one 8-yard mercerized lace.

Nemo
Self-Reducing Corsets

Nemo Corsets are designed particularly for stout women. They are based upon the supporting and reducing power of Nemo Self-Reducing straps. Their function is to reduce and reshape the abdomen by helping to eliminate excessive fatty tissue which so often accumulates on the abdomen in the groin section, directly over the muscles and under the skin. **Order size two inches smaller than waist measure taken over corset.**

Self-Reducing Corset

Price each $5.25 Postage, prepaid.

Sizes, 22 to 30. Also 32, 34, 36.

32 E 7661—White. Nemo Style 361.

Nemo self-reducing corset of durable white coutil. Correctly proportioned and designed to meet the demands of the average to stout figure of medium height. Self-reducing straps over abdomen fastening with steel eyelets to the graduated front clasp, which permanently, but comfortably help reduce excessive flesh and gives the stout woman a trim, symmetrical figure. Boned throughout with non-rustible steels. Lace trimmed top. Four Lastikops web hose supporters. Length of front clasp, 11 inches. Height of bust, above waistline, 3½ inches. Length of back, below waistline, 14 inches.

For Average to Full Figure

Price, each $5.50 Postage, prepaid.

Sizes, 22 to 30. Also 32, 34, 36.

32 E 7611—White. Nemo Style 311.

This Nemo reducing corset is especially designed for average to full figures of short or medium height, with flesh evenly distributed. Made of durable white coutil and well boned throughout with non-rustible steels. Low top, medium long skirt. Reducing bands of coutil fastening with steel hooks and eyes to front steel. Four Lastikops hose supporters. Graduated front clasp, 11 inches long. Bust, above waistline, 3½ inches high. Back length, below waist, 12½ inches.

Nemo Wonderlift corsets made of durable white coutil and boned throughout with non-rustible steels. The distinctive feature of these corsets is the semi-elastic bandlet inside the corset which is adjusted by an inside uplifting lacing, the ends of which pass through eyelets to outside of corset. Its supporting and reducing power makes the figure actually smaller at once, and permanently. Top is trimmed with fancy batiste, finished with satin ribbon bow. Six Lastikops web hose supporters with self-covered buttons. One retaining hook below 13-inch graduated front clasp. Height of bust, above waistline, 5 inches. Length of back, below waist, 12¾ inches. **Order size two inches smaller than waist measure taken over corset.**

32 E 7435—Pink.
32 E 7436—White.

Nemo Circlet Brassiere of heavy batiste. Slips on over head and fastens at the waistline, front and back. It beautifies as it encircles the form because it evenly distributes the bust and s[u]pports flesh and prevents it from protruding over the top of the corset. The flesh when properly controlled and molded gives a smooth, unbroken contour in front and flat lines at the back and under arms.

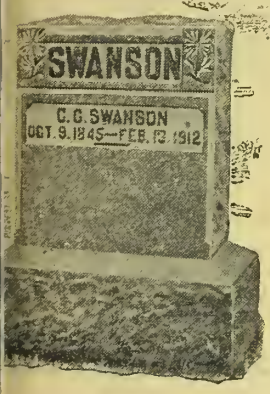
A Lasting Tribute

"The hills rock ribbed and ancient as the Sun,—the vales
Stretching in pensive quietness between;
The venerable woods—rivers that move in majesty,
And the complaining brooks that make the meadows green; and poured round all,
Old Ocean's gray and melancholy wastes
Are but the solemn decorations all of the great tomb of man."



Thanatopsis—William Cullen Bryant

Nature has given us enduring and beautiful stone—Red Majestic Granite, Gray Barre Granite and blue veined and white clouded marble from which we erect memorials to our dead. It is a beautiful custom of centuries which finds proper and artistic expression in these stones.

Uniformity and close texture are outstanding qualities of Gray Barre Granite and blue veined and white clouded marble. They are quarried deep from the surface of the earth, a fact which assures their lasting qualities, and their ability to take and hold beautiful polish.

Ward's monuments are the product of districts producing the finest stones of America. They are hewn by expert workmen. They go to you fully covered by the broad Ward guarantee of absolute satisfaction or your money back.

On this page we show but a few of our splendid monument values. We desire to deseribe others to you in detail and show you pictures of them. Our special monument book offers you a wide range of sizes and designs at prices ranging as low as $8.55. Send for it today. Your name and address signed to the coupon below and mailed to us will bring this special book to you.

Marble—Gates Ajar Design

The gates ajar. A dignified memorial of highest grade, even-textured marble. Expert workmanship only enters into the making. The top is cut to represent a scroll adapted for inscription. Other lettering may be placed on the upper base as shown.

We can furnish this monument in two sizes, 3 feet 4 inches or 4 feet high in either white clouded or blue veined marble at prices ranging from $45.75 to $76.50.

You will find complete information on page two of our special monument book which contains also descriptions of lettering and directions for ordering.

A Testimonial

The monument I ordered has arrived and been erected. It reached us in first class shape. We are highly pleased with it. It is far ahead of anything around here in the quality of marble and also in workmanship. Everybody that sees it asks me where I got it. It certainly is nice.

Edmond Okla. GEO. SNIDER.

A Well Modeled Design in Majestic Red Granite

Only recently have we had memorials of Majestic Red Granite. The contrast in color between the polished surface and lettering or unpolished parts is striking.

This beautiful memorial is only one of the many listed in our special book. It has a highly polished face with an artistic carved floral design. The base is furnished either in Red Majestic Granite or Gray Barre Granite.

Our prices are extremely low considering only perfect stone are selected and used. Polishing and carving is done by experts.

We have this design in three heights, 3 feet 10 inches, $198.00; 4 feet, $215.00; 4 feet 2 inches, $245.00.

For complete description and prices consult our special monument book which also gives the necessary information as to how to properly set the stone.

Mr. Kinsley's Purchase Was All Right

Montgomery Ward & Co.,
Gentlemen:

My order was received and with the exception of some of the articles which were too small, everything was all right.

I returned those that were too small for others and received them and everything was satisfactory.

Yours truly,
Elmer Kinsley,

Nashua Woolnap Blankets Keep You Warm

WARMTH is not a property of wool or cotton but of the human body. Blankets give no warmth of themselves; they serve merely to "hold-in" the body's warmth. Woolen blankets are warm because of the STRUCTURE of the wool; its crinkly fibres make countless little air-spaces, while ordinary cotton fibres usually lie flat and smooth.

By adopting the structure of wool the NASHUA WOOLNAP Process gives to NASHUA WOOLNAP cotton blankets the heat retaining qualities of all wool blankets.

NASHUA WOOLNAP Blankets are remarkably strong. Will not shrink when properly washed.

As Near to You As Your Railroad

Steel Rails, woven in a giant web reaching every section of the United States, bring almost to your very door the stores of Montgomery Ward & Co. Ward's reliable merchandise and Ward's low prices are within easy reach of everyone.

All of the several million Montgomery Ward & Co. customers could not live close to Chicago, so we built stores near our customers. We built them in railroad centers from which trains run in some direction every few minutes. Scarcely a train that does not carry something from Ward's to you or someone who, like you, uses this book as a buying guide.

You may shop for things in the pages of this catalog, just as you would if you came to our store. You have the same wide range from which to select.

You get exactly the goods you want; just as pictured and described in this book.

You have the big advantage that you make the selection in the quiet of your home, with all the time you desire to make your choice. You take the whole family shopping with you.

Finally, you have the positive assurance of the Montgomery Ward & Co. guarantee—"Satisfaction or Your Money Back." We want you to be fully pleased with everything you buy at Ward's; if not, the goods are exchanged or your money given back, quickly and cheerfully. As easily done as though you yourself called at our store to make the change, in many cases more easily and more conveniently.

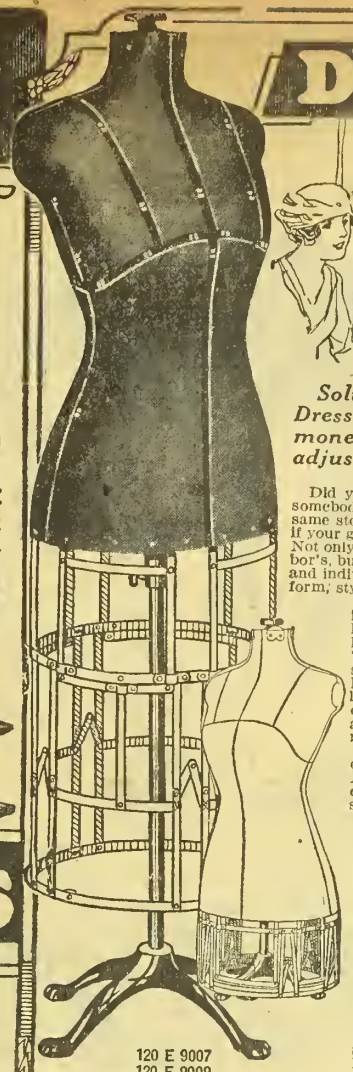
Dress Forms



Solve the problem of the "High Cost of Dressing." Have a bigger wardrobe for less money by using one of our "Thornward adjustable dress forms."

Did you ever see your dress walking down the street on somebody else? Chances are that she bought her's at the same store your's came from—but that would never happen if your gown had been made on a "Thornward Dress Form." Not only will you get a dress that is different from your neighbor's, but you will be able to embody your own personal tastes and individual style. These dress forms are adjustable to any form, style or shape. The bust, waist and hips individually may be increased or decreased in size, raised or lowered, the back, front and under-arm can be lengthened or shortened independently, neck made large or small, and skirt adjusted to any length. These sections operate on friction slides. The more sections, the more adjustments. Our dress forms have telescoping skirt, permitting the operator to lower form to any desired height while sewing on the collar or basting in the sleeves. Just take a chair and sew in comfort. Closes to about ½ size, and need not be in the way when not in use.

Body is fiber papier mache, covered with Jersey cloth, which permits pinning. Simple to operate. Adjustments are made from the outside without changing the position of other parts. Lower part of stamped nickeled flat steel hands. **Not Mailable.**

Careful Tests Prove The Merit of Ward's Goods

A LARGE stock of permanent finish Swiss Organdie was offered to us by an importer at such a low price that our buyer doubted the quality.

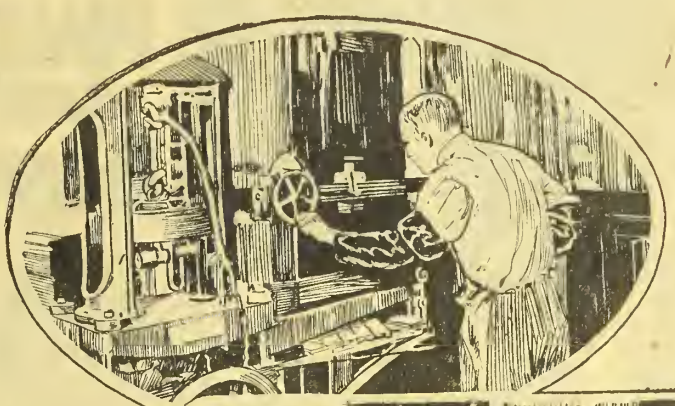
He did not see, possibly, how a real imported Swiss Organdie permanent finish could be sold so cheaply.

A sample was sent to our analytical department to determine the quality and to find whether the finish was really permanent.

This report was made by our analysts.

"After washing with white laundry soap and boiling for fifteen minutes, then drying, dampening and ironing, except for a thickening up there is no change in the appearance of the cloth. The finish is permanent."

We immediately purchased this entire lot of organdie at an astonishingly low price. This saving is being passed on to our customers.



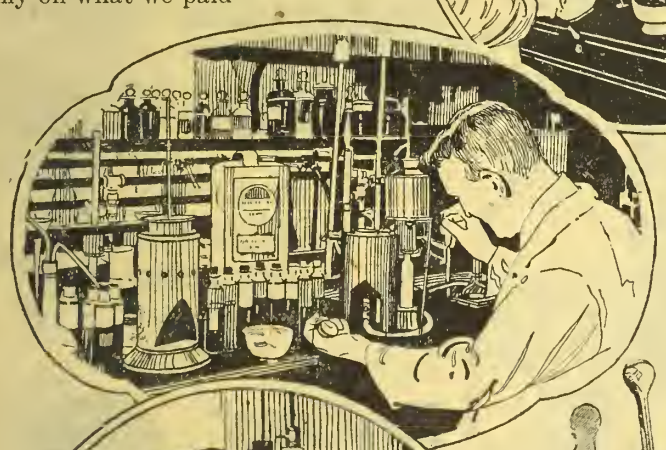
This example is quoted as one which illustrates the careful buying and analyzing of all our merchandise before it is offered to our customers.

Every article must be right.

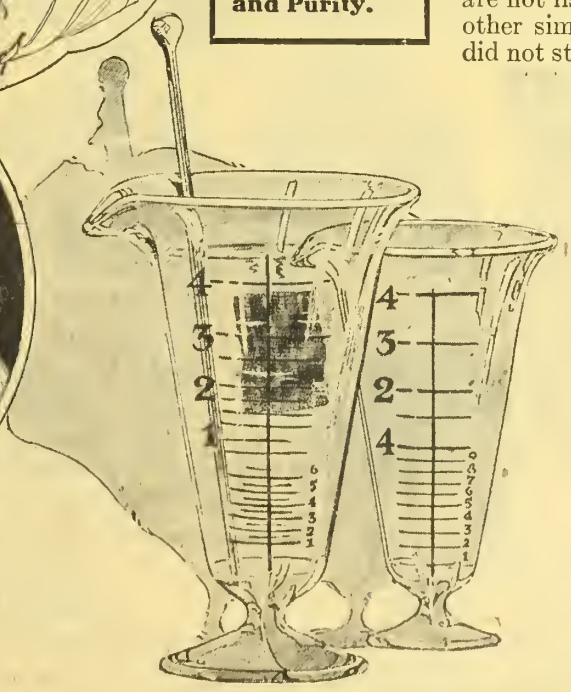
Tests similar to this are being made constantly. Many opportunities similar to the above are presented, but every article must be as it is represented before it is listed in our catalog.

The grocery department manager recently was asked by a certain canner to buy an entire stock of very high quality apples. These apples were quoted at a price which was as low as our buyer had been paying for canned apples of a lower grade. Tests were made and the apples were even better than the canner had claimed. Here again was an opportunity for us to pass on to our customers the savings we had made by an exceptional purchase.

We were quick to buy the entire lot and offer them to our customers at a price based only on what we paid



Tensile Strength Testing.
This machine is the delicate instrument which tests the Tensile strength of all wool, cotton and silk.



Microscopes are used to Analyze Practically Every Article of Merchandise.

Food Testing.
Our Chemists Test All of Our Canned Foods to Determine Food Value and Purity.

The Spectroscope in Operation.
This instrument determines the amount of Sugar Content in Groceries and Drugs.

Under the Microscope —It Showed What?

A QUANTITY of infants' hose was offered to us, as all wool, but the rigid tests in the analytical department found forty per cent cotton. We wanted an all wool baby stocking. So the entire lot of two thousand one hundred and sixty pairs was rejected.

In selecting a certain work sock, samples were submitted by various manufacturers. The wool fiber of these socks was tested to find which had the greatest strength. The ones which stood the most exacting tests are the ones which you can buy in this catalog.

The following exact quotations from Research Laboratory Test Reports tell why certain articles are not listed in this catalog; and there are many other similar articles turned down because they did not stand the test.

DRESS

"Conforms as to composition, except that Hand Embroidery is artificial instead of pure silk." Lot Rejected.

SHIRTING

"Claimed 100 per cent Silk. Analysis shows 22 per cent silk, 78 per cent mercerized cotton." Lot Rejected.

PAINT BRUSH

"Microscopic Examination shows this to be goats' hair and not camels' hair as described." Lot Rejected.

CAMISOLE

"The lace is imitation filet instead of val which specifications call for." Lot Rejected.

It is this policy of refusing absolutely to sell anything which does not answer in every way our catalog descriptions that enables us to retain the confidence of our customers, and to live up to the policy of Satisfaction Guaranteed or Your Money Back.

Ward's Tu Tex Underwear

REG. U.S. PAT. OFF.

Combines the Protection of Wool and the Comfort of Cotton

TU TEX Underwear is made exclusively for us by one of the most reliable manufacturers in the country. Two fabrics knitted in such a remarkable way that it has the appearance of a single knitted fabric. By this process it is possible to make the inner fabric (which touches the flesh) of soft, comfortable, non-irritating cotton while the wool in the garment is all in the outer fabric. This eliminates the universal objection to wool underwear. The illustration shows how these two fabrics are knitted together, with the wool on the outside and cotton on the inside and air space between. A perfect combination, giving warmth of wool with the comfort of cotton.

Tu Tex Underwear
For Men Page 233
For Misses and Girls Page 230
For Boys and Youths Page 228

The two separate fabrics also give you greater protection against changes of temperature, such as going from a warm house or room into cold air outdoors. This protection is due to the air space between the two layers of fabric.

Tu Tex Underwear will also give you greater warmth with a much lighter weight fabric, thereby adding much to your comfort.

Tu Tex Underwear is listed in several qualities, each made to give the amount of wear consistent with the price. You may order Tu Tex Underwear with the absolute certainty that it will satisfy and come up to the standard we claim for it.

Ward's Tu Tex Underwear For Boys

REG. U.S. PAT. OFF.

Tu Tex Underwear is made exclusively for us by one of the most reliable manufacturers in the country. Two fabrics knitted together in such a remarkable way as to have the appearance of a single knitted fabric. By this process of knitting it is possible to make the inner fabric (which touches the flesh of your body) of soft, comfortable, non-irritating cotton.

Tu Tex Underwear is listed in several qualities, each made to give the amount of wear consistent with the price.

For full details, see page 233.

Ward's Tu Tex Underwear

REG. U.S. PAT. OFF.

For Girls

Tu Tex Underwear is made exclusively for us by one of the most reliable manufacturers in the country. Two fabrics knitted in such a remarkable way that it has the appearance of a single knitted fabric. By this process it is possible to make the inner fabric (which touches the flesh) of soft, comfortable, non-irritating cotton while the wool in the garment is all in the outer fabric. This eliminates the universal objection to wool underwear. These two fabrics are knitted together, with the wool on the outside and cotton on the inside and air space between. This makes a perfect combination of the warmth of wool with the comfort of cotton.

The two separate fabrics also give you greater protection against changes of temperature, such as going from a warm house or room into cold air outdoors. This protection is due to the air space between the two layers of fabric.

Tu Tex Underwear will also give you greater warmth with a much lighter weight fabric, thereby adding much to your comfort.

Tu Tex Underwear is listed in several qualities each made to give a generous amount of wear consistent with the price.

Ward's TU TEX UNDERWEAR

REG. U.S. PAT. OFF.

This Picture Shows the Two Distinct Fabrics Used to Make Tu Tex Underwear.

The Warmth of Wool and Comfort of Cotton, Combined

TU TEX Underwear is made exclusively for us, by one of the most reliable manufacturers in the country. Two fabrics knitted in such a remarkable way as to have the appearance of a single knitted fabric. By this process it is possible to make the inner fabric (which touches the flesh) of soft, comfortable, non-irritating cotton while the wool in the garment is all in the outer fabric. This eliminates the universal objection to wool underwear.

The illustration above shows how these two fabrics are knitted together, with the wool on the outside and cotton on the inside, and air space between. This makes a perfect combination, having the warmth of wool with the comfort of cotton.

The two separate fabrics also give you greater protection against changes of temperature, such as going from a warm house or room into cold air outdoors. This protection is due to the air space between the two layers of fabric.

Tu Tex Underwear will also give you greater warmth with a much lighter weight fabric, thereby adding much to your comfort. Tu Tex Underwear is listed in several qualities, each made to give the amount of wear consistent with the price. You may order Tu Tex Underwear with the absolute certainty that it will satisfy and come up to the standard we claim for it.

Our famous Ward Wear Tailor Made cotton union suits. Only high grade especially selected materials and the finest workmanship can produce such splendid garments. The special Ward Wear features are: reinforced military shoulders which are obtained by inserting a strip of strong elastic ribbed knitted fabric into the shoulders which gives additional strength and removes shoulder strain when stooping; collarette neck.

Flat smooth seams, strongly stitched and reinforced at ends to prevent ripping, and will not irritate the flesh; extra stitched buttonholes. The perfect fit of our Ward Wear closed crotch is obtained by inserting a piece of elastic fabric at crotch which eliminates all tendency to bind or gap and results in garments as well constructed for comfort as tailor-made trousers.

Walking is a Real Pleasure if Your Shoes Fit Right

We have devised these simple self-explanatory shoe size charts to help our customers to order the correct size shoe they should wear. There is no easier way to find the size shoe to order than from these charts. They are very simple and easy to operate. Just place a stick or any rigid object on the black dotted line, and place the heel of the stocking foot against it, being careful not to push it off the line. Notice which line is nearest the end of your big toe—the number at the end of the line is the size to order.

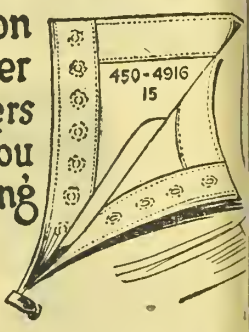
About Women's Shoes

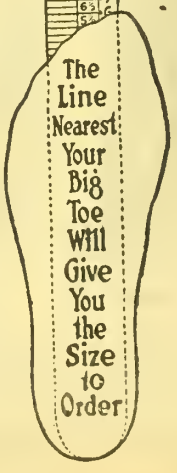
When ordering women's shoes, if you change from a low heel shoe to a high heel shoe it is always best to order a half size shorter shoe. The high heel forces the arch up a full half size, therefore in a low heel shoe a half size longer is necessary than in a high heel shoe.

About Children's Shoes



You know that children, from the ages of 3 to 10 years, grow very fast. For this reason we suggest that you order a half size larger shoe for your child after each half year of your child's growth. Our children's shoes are all built on scientifically correct shapes. They allow your child's feet to grow as nature intended. See pages 252 to 257 for shoes for boys, girls and infants.

Do Not Use These Charts To Fit Rubbers



When ordering rubbers, send us, if possible the exact numbers printed inside of shoes or slippers over which the rubbers are intended to be worn. Also place your shoe on a piece of plain paper and draw an outline of the shoe, mentioning whether it is a high heel or low heel. A high heel rubber will not stay on a low heel shoe and a low heel rubber will not stay on a high heel shoe.

How to Help Us Fi Your Feet Correctly

Please Mention on Your Order all the Numbers in the Shoes You are Now Wearing

Before ordering new shoes look carefully into the sho you are now wearing and mention in your order all t numbers which appear therein. If you send us this inform tion you will be sure to receive the most perfect fitting sh possible. If you cannot send us the numbers, or do know your correct size, use the measuring charts on t page.

Ward's No-Squeeze Foot-Form Shape Shoes For Children

Children's little feet are like seeds that you plant in a garden. Sunshine, air and water are supplied by nature with the intention of bringing these seeds up into healthy vegetation. And so with Ward's NO-SQUEEZE shoe for children—they allow your child's feet to grow and develop as nature intended. The footform shape is the exact shape of your child's bare feet and we recommend them, unhesitatingly, for YOUR child.

BENEFACTOR BEST QUALITY · Rubber Footwear ·

THE Benefactor Patent Pressure process is a method of consolidating a rubber boot or shoe into one piece, rendering the highest efficiency in wearing qualities. The uppers, soles and heels are strengthened by this process which does to rubber what tempering does to steel. You'll marvel at the way they wear. And bear in mind, long wearing rubber boots are always the cheapest in the end. That's why you should buy Ward's Benefactor Quality.

What They Say About Ward's Service and Ward's Values!

OUR big daily mail is a true reflection of the contentment of the millions of folks served by this store. Their appreciation of Montgomery Ward & Company service and values stands out in the letters they write us. It pleases us, quite naturally, to hear these expressions of praise. We thank the customers whose letters are printed, not only for what they have said, but for the permission given by them for us to print their letters here. We never use a testimonial without permission.

Groceries Cannot Be Equalled

"I can readily say your groceries can't be equalled. The quality is of the best and the price most reasonable. I know very well I could not buy the same goods here without paying a good deal more."

Mrs. H. F. Swain, Crookston, Minnesota

More Than Satisfied

"I have always been more than satisfied with the garments I purchased from Montgomery Ward and Company. They are of excellent quality and could not be purchased at any of our local stores at these low prices."

Mrs. John R. Gaffey, Rock Falls, Illinois

Mattresses Were Splendid

"The mattresses sent me were splendid. A fine value for the money. Am well satisfied with them.

"Thank you for your prompt and good service."

Peter Lindgren, Hermansville, Michigan

Stove Perfectly Satisfactory

"The stove which I ordered from your company some time ago has been received in good order. It has been set up and I am perfectly satisfied with it. My wife says that it is the neatest little stove she has ever seen and that as a general cooker it cannot be beaten."

Robert L. Bickford, Newport, Vermont

Wore His Ward Shoes a Year

"I ordered a pair of shoes from you about a year ago, and I am still wearing them. They ar still perfectly good. I am glad to tell you that I am a well satisfied customer."

D. A. Culley, Church Hill, Mississippi

Stove Bakes Perfectly

"I wish to express my appreciation for your stove, the American Beauty, which we received in November 1919. It bakes perfectly and is easily kept clean."

Mrs. Otto Ristau, Mansfield, South Dakota

Likes Runrite Oil Best

"I like your oil much better than any oil I have ever used. I have had less trouble in cold weather by using your Runrite Oil than with any other."

George Althouse, Utica, Nebraska

Saves One-third and Gets Better Groceries

"I am entirely satisfied with all my groceries bought of your company. I know I could not have bought the same quality of groceries elsewhere for the same money. I saved one third on my order after paying freight charges besides getting a much better quality of groceries."

Ray Stevens, Sagola, Michigan

Two Tires for the Price of One

"I am very well satisfied with the auto accessories I received. I can buy nearly two tires from you for what I have to pay for one at the local dealers."

Fred C. Butten, Warwick, North Dakota

Ward's Paints Best for the Money

"I have used about 2 barrels of your paints and know they are the best paints for the money. Your paint wears as long as any paint I have used."

G. H. Fornwalt, Kingman, Kansas

Prompt, Courteous, Reliable Service

"My order of lace curtains and underwear received O. K. Order was filled promptly and correctly and the quality of the goods was far beyond my expectation. To duplicate the same here would cost me from fifteen to twenty-five per cent more.

"Hereafter I intend to patronize your house for practically all my goods and I will not hesitate to recommend your house to everybody that I know as being prompt, courteous, and reliable.

Many thanks for your courtesy and good treatment."

F. M. Trout, Columbus, Ohio

"We Like the Piano Very Much"

"The piano came Monday, and everything was in good shape. We like the piano very much. The piano dealer here asked $750.00 for his piano and I would not trade the Windsor Master Design Piano for two of his."

Otto A. Sanrope, Osseo, Wisconsin

None Could Be Dissatisfied

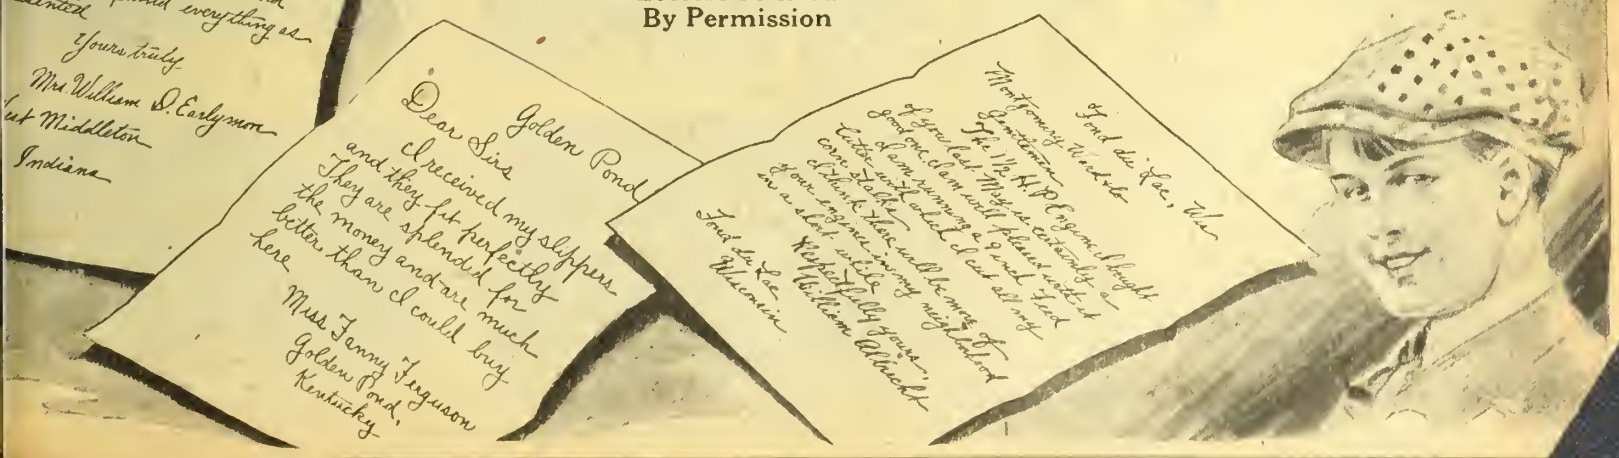
"I received the chisels, countersink and pliers the 20th and the invoice and draft today. I do not think any one could be dissatisfied with the way you deal with your customers. When I am in need of anything in the future I will send to you for it.

"Thanking you for past favors, and wishing you the best of luck."

Lee Daniels, Milana, Ohio

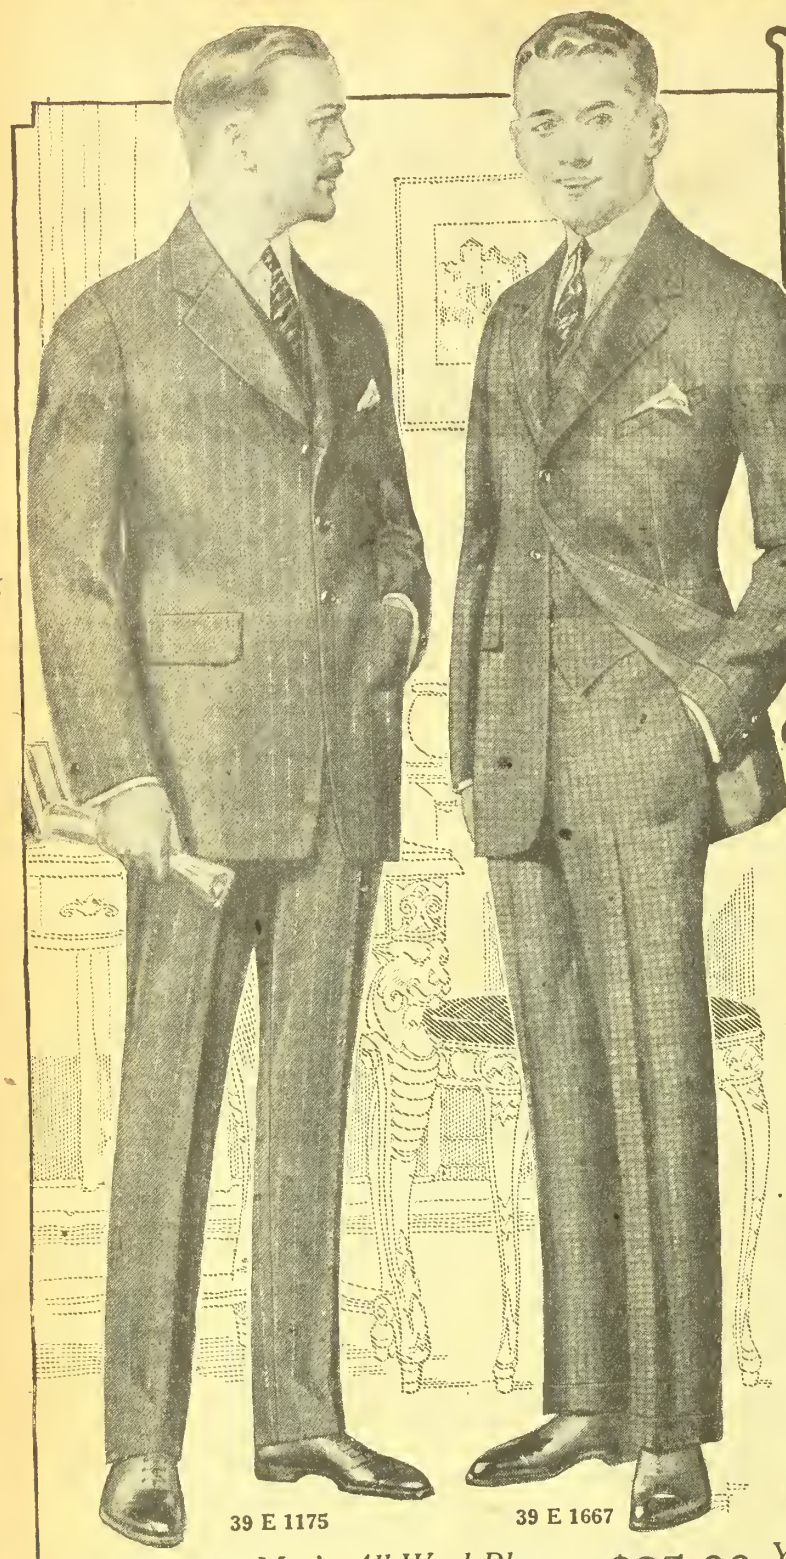
Engines Best Money Can Buy

"The engines I received from you are the best money can buy. I will be pleased to recommend the engines to anyone that writes to me."



Albert Engrum, Eleva, Wisconsin

"Can't Tell You How Pleased We Are"



"I received the Cecilian phonograph and I can't begin to tell you how pleased we are with it. We got it to put on top of our music cabinet and it is a complete match. We also saved several dollars, and the tone is far superior to any we have ever heard."

F. N. Parrish, Mishawaka, Indiana

Ward's Clothing

It is no longer necessary to have your clothes made to order to be well dressed.

Our clothing as illustrated and described on this and the following pages is the result of years of experience in the making of wearing apparel which has in addition to dependable fabrics, the latest styles and tailoring of the better grade.

The fabric, pattern and color range is wide, varied and most pleasing and you are assured of entire satisfaction.

You who have worn our clothes know their distinctive quality. The same high standard that we have maintained in the past is maintained now.

Every garment that we sell is covered by our guarantee which absolutely protects you. You'll get clothing that is just what we describe it to be.

Read What a Customer Says

"Every garment I have ever received from you was first class. When I order from Montgomery Ward & Co., I am sure I will get just what they claim the goods to be. Have always been well pleased."

Ed Calliot.

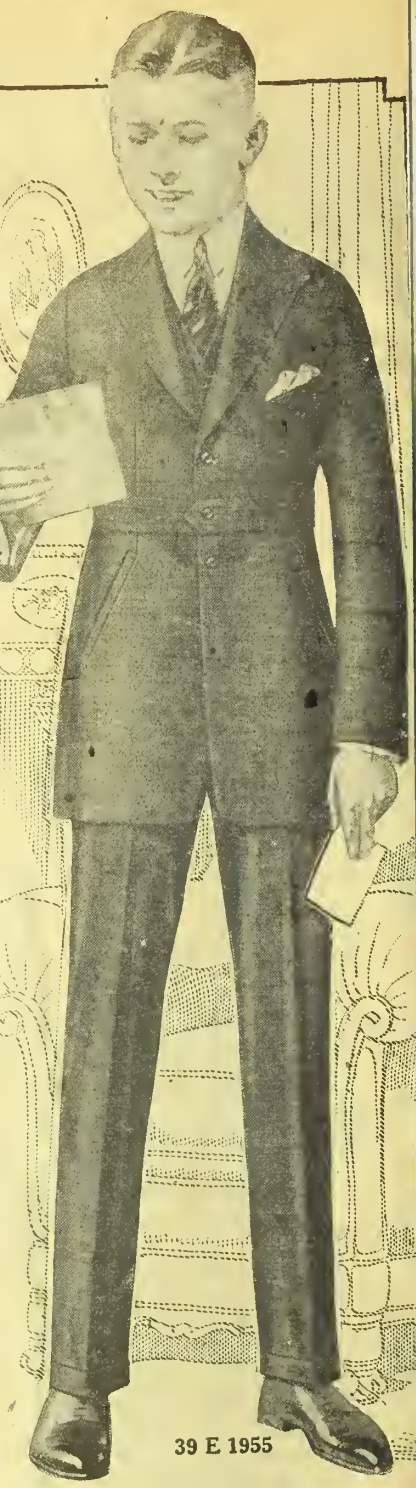
This Label in Your Clothes is a sign of Quality

Why We Do Not Send Samples



Every fabric that goes into Ward's clothing is analyzed in our laboratories to determine whether it is all wool and if not what percentage of wool and cotton it contains. It also is tested for strength. We do this so that we can tell you truthfully exactly of what the material is composed.

Our illustrations are carefully drawn and are accurate copies of the patterns just as they look in the fabric. The slightest detail of style, too, is faithfully shown.

Illustrations on pages 324 and 325, men's trousers, and pages 320, overcoats, are actual photographs of the materials.

The sending of samples is very costly. It means hundreds of yards of goods have to be cut up which adds to the cost of doing business.

In order to eliminate this expense in the cost of your clothing, we have discontinued sending of samples. You get the benefit in reduced prices. We guarantee to satisfy you.

How To Measure

Read Carefully Before Ordering

It is very important that you follow the simple instructions given below for measuring, and be sure to include them with your order.

How to Take Chest Measurement for Coat and Vest; also Sleeve.

Chest Measurement—See that tape measure is placed all around body over vest, close up under arms and over shoulder blades in back. See figure at left. Always give height and weight.

Sleeve Measurement—From center seam in back over elbow to wrist. See picture.

How to Take Measurement for Trousers and Overalls.

Waist—Put the tape measure all around your waist, just above the hip bones. See figures at right.

Inseam—Measurement should be taken from close up in crotch to length desired.

How to Take Raincoat or Overcoat Measurements

When taking measurements for raincoat or overcoat, place the tape measure around the body over vest close up under the arms and over shoulder blades in back. See figure at left. Always take your chest measure over your vest and always give height and weight.

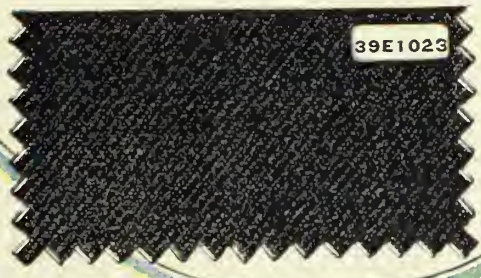
THESE eight suits prove that we produce the Biggest Values in Men's Clothing. We claim they offer you the biggest actual value for your dollar that you can get anywhere.

Our Factory-to-You Policy eliminates the Middleman's profit—a saving which we pass on to our customers.

The Fabrics are all Virgin Wool. Eight different shades and patterns from which to select. All at the same low price. The serges are neat and dressy; the handsome worsteds have attractive harmonizing stripes.



The Style:—Three-button, single breasted model, that will appear just right on any man. Vest has five buttons. Plain bottom trousers with large turnup can easily be made cuff style. Five pockets and belt loops.

The Tailoring:—Much above the average for this price. We put canvas and hair-cloth fronts in our coats. Consequently they retain their shape and good appearance after much wear. Only ivory buttons are used. The body lining of the coat and the vest back are of fine quality serge. We have bar tacked all strain points to prevent ripping.

DIAMONDS

Each Quality Represents Full Value at the Price

OUR liberal guarantee allows you 60 days to examine your Diamond and prove to your own satisfaction that it is the best value you can obtain for the money. Each quality is full value for the price quoted—every diamond is very carefully and individually inspected and graded. We especially recommend our "Selected" Quality as being very satisfactory in every respect. We believe these high-grade Diamonds will please even the most particular.

"Selected" Quality

Our "Selected" Quality—carefully inspected Diamonds of excellent color, perfectly cut and wonderfully brilliant. Anyone would be proud to own a Diamond of this quality.

"Fine" Quality

Our "Fine" Quality is slightly different from our "Selected" Quality Usually the color is just as good, but the cutting is not quite as fine. Represents special value at our prices.

"Medium" Quality

Our "Medium" Quality is not quite as good as our other qualities, but is free from objectionable flaws. Nothing about the color or cutting that interferes with the brilliancy.

545 E 212—The "Supreme" Diamond Ring is one of the most popular models that we ever have shown. Diamond in this one weighs 5/16 less 1/32 carat.

Latest Style Engagement Ring

Our "Supreme" Diamond Ring is truly in keeping with the styles of today. A dainty, hand-carved design with yellow gold band and white gold prongs that have the appearance of Platinum. Solid 14-Karat Gold throughout. This beautiful ring rapidly has become a close rival of our "Solitaire" style ring—the favorite ring for women. The enlarged illustration shows the detail of its elegant design.

Ward's "Faultless" Diamond Cluster

The Diamonds used in our clusters are of good color—carefully sorted and matched. They are set in a disc of Platinum because its clear color blends most perfectly with that of the Diamonds—making the 7 Diamonds appear as one large single Diamond. This cluster is then set in a Solid 14-Karat Yellow Gold ring that has white gold prongs. The same fine quality Diamonds are used in all of these clusters—the difference in price being due to difference in size.
